CARVER 28" RAIL BLAZER C5 SURFSKATE

Carver's new Mini Series has been designed to fit the younger and lighter rider looking for the same high-performance Carver experience in a board scaled down to their size. With bright, fun graphics. The Tiki Sunrise comes complete with our low-profile C5 truck set, 84a Medium Carver bushings, and 60mm/81a durometer Roundhouse wheels. The result is a surfskate that's lower to the ground so it's easier to push, and is set up with softer bushings to loosen the rail resistance so it takes less weight and effort to carve a turn. Pressed in 7 ply maple to support full size riders

Smooth as a beach stone, this rounded egg harkens to the buttery lines you'll draw with it. Wide enough to be anyone's daily rider, it's still short enough to feel loose and easy as a sunrise surf session

Length: 28"
