CARVER 31" GHOSTNET SURFSKATE COMPLETE CX / C7

Every season, Carver introduces new innovative deck models with original templates and molds. However, this time, we aimed to push the boundaries further, recognizing the limitations of wood deck construction, including restricted compound-curve potential.

With an unwavering commitment to excellence, we set our sights on creating the quintessential deck, featuring concave, nose, and tail kick— a skateboard that even JPL or Nasa might produce. Choosing Nylon 6, a material crafted from recycled fishing nets, was pivotal due to its specific structural properties, high mechanical strength, lightweight nature, and mechanical dampening qualities, allowing it to flex and feel organic like wood. No ordinary plastic possesses these critical characteristics.

Carver's mission is clear – to offer riders the best surfskate deck available, providing an opportunity to save the planet and ensuring that your lines are cleaner than ever.

Compatible with Carver 68mm Mag, 69mm Concave, and 70mm Mag wheels

Truck Option: C7 - CX
Truck Color Option: Coal Black
Wheels: 65MM Slicks Black 83A
Bearings: Built-In
Grip Tape: Full Deck Griptape
Hardware: Stainless Steel
Length: 31"
Wheelbase: 16.625"
Nose: 4"
Tail: 6.25"
