CARVER C7 SURFSKATE TRUCK SET

This is the signature truck that started it all. Still the smoothest turning, fastest pumping surf truck ever, it's at the leading edge of true surfskate performance. The patented second axis of this front truck not only increases the turning radius of our carve, but lets you snap the nose and pivot your turns off the tail. This dynamic creates thrust and drives you forward with increasing speed. The striking similarity to surfing performance has made the C7 the choice for surf training by pros and ams alike.

The C7 Truck Set includes:

- C7 Truck System (C7 front, C2 rear)
- (2) 3/16" Gasket Riser Pads
- 1 set of 1 1/2" Black Hardware
