Featuring the famous Carver CX precision pivot trucks for a responsive and precise surfskate feeling, the series also comes with fast and grippy 68mm Carver Roundhouse wheels as well as a 7-ply maple deck, each one being the result of 25 years of commitment to inimitable design and durability.

The CX truck is a hybrid between the truck of a surfskate and a skate, it takes more angle and is lighter offering more responsiveness and grip to send short and powerful turns. This truck allows you to perform aerial tricks with excellent reception, gain speed with control and pump to move forward as on the C7 truck thanks to its reverse axis system.
