### CATCH SURF ODYSEA SKIPPER QUAD JOB PRO SKY BLUE SOFTBOARD

Jamie has charged some of the gnarliest waves out there and believes his models are the ultimate shore-break boards; plus he can throw chunks, bust an air or tweak a turn when the waves aren't deathly. Not only do the JOB models offer performance, but the signature graphic reeks of tropical bliss.

Keeping with Odysea® tradition, the Skipper is purely focused on fun and good times. With mega-Odysea float everyone has come to love, the Skipper infuses a sleek fish shape for down-the-line-speed and drawing out perfect, stylish turns. Now equipped with our hi-performance fin system for added drive in steeper waves and even more speed in the tube. The Skipper is your first mate for fun!
