CI AL MERRICK ULTRA JOE SQ 5 FINS

A few years back, we built the Average Joe to be a fun, simple, easy-to-ride board and it became one of our top sellers. For 2019, after rounds of customer feedback and team testing, we've created a souped-up, sleeker version...the Ultra Joe.

The Ultra Joe boasts foiled rails, a double-bump squash tail, narrower nose with an updated rocker profile, and additional exit rocker. The result is a progressive step forward for beginner/intermediate surfers while at the same time is an inviting step down for average to good surfers seeking something fun and cruisy on the smaller, weaker days.

Despite all these changes, one thing remains the same: the fun factor.
