CHRIS CHRISTENSON

CHRIS CHRISTENSON 9'3" BONNEVILLE

9'3" x 22 3/4" x 2 7/8"

Matte finish

The narrower nose with the wide point well behind center help this board turn and pivot on a dime and with the reverse rocker and extra tail kick it can nose ride with the best.

Mitch Abshere and I have been working on this design for a while and we have finally nailed it. The narrower nose with the wide point well behind center help this board turn and pivot on a dime and with the reverse rocker and extra tail kick it can nose ride with the best.

This board has a shallow nose concave that goes almost to the mid point and soft 50/50 rails all the way thru the tail.
