CHRIS CHRISTENSON

CHRISTENSON SURFBOARDS CHRIS FISH

Still probably the most versatile design of all surfboard craft.

If you were stranded on an island for the next 10 years and were only allowed one board this would be my recommendation. Tested from Cardiff Reef to Uluwatu, Waikiki to Pipe, this is a very trustworthy design.

Double foil fins with low cant and toe complimented by the twin pin tail allow this board to reach high speeds and insure hold whenever on the rail.

The board comes in resin tint color with deck logo and bottom logo as showed in the yellow pictures.
