

FANATIC PADDLE RIPPER CARBON 25 ADJUSTABLE 130-160 BOY

Code: 13200-1322

€ 69,95

FANATIC PADDLE RIPPER CARBON 25 ADJUSTABLE 130-160 BOY

We understand that kids need to be encouraged and that often starts with them being comfortable with the equipment they are using. We have come up with paddles specifically designed for juniors and as the perfect partner for our Ripper Air kids iSUP boards. Our lightweight Ripper Carbon 25 comes with a unique Carbon look and our highly durable 6.5" blade to withstand the daily hits from the unavoidable learning curve. Designed to unleash the grommets playful nature and their hunger to be out there for hours without feeling tired. Adjustable from 130 – 160cm, it just grows with them.

PADDLE TECHNOLOGY / ANTI TWIST SYSTEM

Our new Anti Twist System, with its channel on the extension and a matching cleat system, puts an end to using additional forces whilst locking your adjustable system. It ensures that the handle and blade are always lined up correctly. Paddle with confidence – your shaft and handle won't move! Our adjustable models are now all equipped with Anti Twist System.
