

FCS II FELIPE TOLEDO PG PRO TRI FIN SET BLACK ACID

Code: FFTM-PG01

€ 129,95

FCS

FCS II FELIPE TOLEDO PG PRO TRI FIN SET BLACK ACID

Filipe Toledo's signature template is made for fast, progressive surfing. These fins deliver exceptional drive and control off the bottom without hampering the speed off the top and release through the lip.

Suited to a wide range of conditions and particularly good in critical overhead waves. Recommended for performance shortboards with moderate to extreme rocker.

Constructed with ultra-light materials and combines the drawn-out influences of a more raked fin with the all-round versatility of the Performer.

Delivers exceptional drive and control off the bottom without hampering the speed off the top and release through the lip.

Ideal Conditions

A wide range of conditions, particularly good in critical overhead waves.

Board Types

Designed to fit the FCS II Fin System.

Recommended for performance shortboards with moderate-to-extreme rocker.

Fin Family

Accelerator: Find Control. Speed, flow and response with added control.

Performance Glass

Solid fibreglass fins have for decades been the go-to construction for many of the world's best surfers.

Performance Glass (PG) fins are machine-cut from layers of solid fibreglass. These fins are stiff and are widely used by pro-level surfers because the integrity of the flex is maintained under immense force, and in the most extreme of conditions and situations.

PG fins have very fast memory recall which translates into speed. These fins generally sit at the higher end of the stiffness scale, providing immediate response and acceleration as the surfer powers up and drives through a turn.
