€ 98,00

FCS

FCS II MICK FANNING NEO CARBON TRI FINS

Large (75Kg - 90Kg / 165 - 200 Lbs)

Base: 4.49 in. 114.0 mm

Depth: 4.67 in. 119 mm

Area: 15.70² 10131 mm²

Sweep: 36.0°

Foil: Flat

Neo Carbon fins are precision moulded using long strand carbon and the highest-grade European resin. These fins are super light with a firm 'spring loaded' flex. Neo Carbon fins actually help surfers generate speed in smaller conditions via the 'whipping effect' that propels you from one turn into the next.

Mick's fin in Neo Carbon material delivers an injection of power and speed through turns due to the 'whipping effect' through the tip of the fin.

Ideal for fast, energetic surfing in softer conditions.

This fin provides maximum drive.

Ideal Conditions

Open face, down-the-line waves, particularly good in point and reef breaks.

Board Types

Designed to fit the FCS II Fin System.

Recommended for performance shortboards with moderate-to-extreme rocker.

Fin Family

Carver: Find Power. Powerful, drawn-out turns with added hold.
