€ 68,00

FCS

FCS II MID SIDE BYTE 3.6" PG FIN SET CLEAR

You committed to riding a midlength, so it makes sense to maximise the performance of the board by using a set of fins that allows you to perform to your full potential.

The 3.6" side bytes are derived from the historic GL template from the late '90s. This template has withstood the test of time and compliments the single by adding response and control when turning.

Surfers wanting a versatile and stable 2 + Box set for their midlength that will encourage smooth flow without restricting manoeuvrability and tighter turns performed higher on the wave.

Side byte template for Midlengths
PG Material

Ideal Conditions

Open face, down-the-line waves, particularly good in point and reef breaks.

Board Types

Designed to fit the FCS II Fin System.
Suitable for longboards, SUP or as shortboard quad rears.

Fin Family

Carver: Find Power. Powerful, drawn-out turns with added hold.

Performance Glass (PG) fins are machine cut from layers of solid fiberglass. These fins are stiff, and are widely used by pro level surfers because the integrity of the flex is maintained under immense force, and in the most extreme of conditions and situations.
