

FCS II OTIS CAREY TWIN + 1 FIN SET

Code: FOCX-PG01-XL-TS-R

€ 129,00

FCS

FCS II PERFORMER TWIN + 1 FIN SET BLACK

Designed in collaboration with Harley Ingleby, the Power Twin has become one of the most popular templates in this ever-growing category. The Otis Carey signature Power Twin features his Indigenous artwork that also appears on his signature FCS traction pad.

"The artwork on the pad and the fin... It's my interpretation of tides and how a full moon high tide goes right up the river" - Otis Carey

This reliable twin template has a fuller tip producing incredible drive and speed allowing you to push hard through turns without fear of skipping out. It also produces exceptional acceleration from the take-off and will feel secure through turns performed on the top half of the wave.

Board Types

Designed to fit the FCS II Fin System.

Recommended for all straight twin and twin +1 models, including fish and funboards.

Performance Glass

Performance Glass (PG) fins are machine cut from layers of solid fibreglass. These fins are stiff and are widely used by pro-level surfers because the integrity of the flex is maintained under immense force, and in the most extreme of conditions and situations.
