

FCS SCOOTER RACK REAR MOUNT

Code: RACK-SCT-001

€ 160,00

FCS

FCS SCOOTER RACK REAR MOUNT

Transport your board to the beach practically and sustainably.

Introducing our innovative surfboard rack system, designed for ultimate convenience.

Features

Adjustable and easy-to-mount system using an Allen key.

Toolless adjustable brackets and quick-release/removable arms for when racks are not in use.

Locking clips to stop the unwanted release of straps

Thick foam to protect boards

Wide elastic for secure holding of boards and not damaging the rails. Adjustable length to suit various board widths

Tool-less fully adjustable lower arms

*Always ride within your abilities. Be aware of the extra width when riding with board and racks attached. Use more caution on windy days and always obey the road rules. Wear a helmet, it's the only head you have.

The manufacturer and seller assume no responsibility or liability of any nature for any injury caused by this product to any person or persons or property of buyer, user or other persons.
