€ 52,00

FIREWIRE ROB MACHADO GOPAD BLACK CHARCOAL 4 PIECE ALGAE FOAM

14" W x 14" H
4 Piece pad
Diamond tread
3M adhesive backing

BLOOM is a high-performance flexible foam made from algae biomass harvested from freshwater sources throughout the world. The BLOOM Foam process:

- Helps improve the quality of waterways by removing excess algae that harms plants, animals, and people who rely on the ecosystem for survival.
- Recirculates fresh water back into the habitat.
- Aids CO2 capture and sequestration. We're literally scraping pond scum, solar drying, and pulverizing it before foaming the material to create a pad that helps re-balance the natural ecology, and reduces our dependence on non-renewable oil.

Through this patented algae-technology, we have created a product with increased durability, improved shock absorption and reduced weight over conventional foams. The packaging is made with post-consumer backing, soy-based inks and a biodegradable wrapping.

By choosing this traction, you are helping make the world a cleaner place.

The GO PAD

Rob Machado's Algae Traction for the Go Fish, the Seaside, and every other fast and wide fish you surf. Designed by Rob to perfectly fit on the Seaside and Go Fish, either as a four piece flat pad with a tail kick, or a two-piece flat pad without a tail kick. We've even worked with Rob to ensure the pad fits perfectly without obstructing the leash plug on both boards, regardless of size.
