FIREWIRE TOO FISH VOLCANIC HELIUM ROB MACHADO SURFBOARDS FUTURES FINS

An evolution of Rob's popular "Go Fish" model from 2017, updated with lessons he learned from the Seaside, this all new Too Fish model is built in Firewire Surfboards Helium Technology for light and lively response underfoot with significant durability improvements above other surfboard building methods given the use of aerospace deck skins on the top and bottom of the board, as well as a rail comprised of paulownia and balsa wood for controlled flex and rebound in turns.

Rob says that the Too Fish is :

"My favorite in small and weak waves because of how thick and floaty it is in the forward two thirds of the board, but this shape is also thinned out aggressively in the tail to enable hold in powerful waves. I've ridden the Too Fish in everything from overhead waves on the North Shore to perfect days on the reef at home, and also the weakest most disorganized junk surf at the beach break in front of my house. This is my favorite board for all conditions."

DIMENSIONI

5'0" X 20 1/8" X 2 3/16" X 25.9L
5'2" X 20 5/16" X 2 1/4" X 27.8L
5'3" X 20 1/5" X 2 1/4" X 28.5L
5'4" X 20 11/16" X 2 5/16" X 30L
5'5" X 20 7/8" X 2 3/8" X 31.6L
5'6" X 21 1/16" X 2 7/16" X 33.2L
5'7" X 21 5/16" X 2 1/2" X 34.9L
5'8" X 21 9/16" X 2 9/16" X 35.5L
5'9" X 21 3/4" X 2 5/8" X 37.3L
5'11" X 22 1/8" X 2 11/16" X 38L
6'1" X 22 7/16" X 2 3/4" X 42.6L
6'3" X 22 5/8" X 2 7/8" X 46.2L

VOLCANIC LAMINATION TECHNOLOGY

Forged in fire, this Basalt lamination technology is our sustainable alternative to carbon, and is our most durable with elevated response.
