FUTURES FINS AL MERRICK TWIN + 1 AMT GREEN

The Al Merrick Twin +1 (AMT) generates maximum speed, drive and hold through big carves to perform around pointbreaks or lined up beach breaks. The AMT's honeycomb construction gives this fin a medium flex pattern, while the large area provides ample hold in overhead surf. The set is equipped with the option to ride with a small trailer fin for increased drive and stability, creating more of a thruster feel.
