FUTURES FINS RASTA QUAD MEDIUM

The Rasta Quad is freesurfing style master's Dave Rastovich's go-to Quad Setup in small-to-medium sized surf. The flex of the honeycomb material combined with a V2 foil on the front fins help to generate speed, while the relatively small rear fins provide release, giving this Quad a performance feel.

V2 FOIL

A V2 Foil is a V. Foil and Flat Foil blend. It takes the best speed generating attributes of the V. (at the base) and transitions into a flat foil in the tip for a controlled release in critical turns. Try the V2 foil if you are transitioning from flat sided fins. The benefits of the V. foil base will be noticeable but the change for your muscle memory will not be too drastic.

HONEYCOMB

A lightweight hexagonal core gives these fins the feel of glass-ons. Engineered with a medium flex pattern, these are stiffer than Blackstix but more flexible than Fiberglass.
