FUTURES FINS JORDY SMITH HONEYCOMB THRUSTER MEDIUM BLACK WHITE CAMO

The Jordy Signature (M), designed by championship tour surfer Jordy Smith, is a medium sized fin in the Rake template category. This set is the daily driver for Jordy's assault on the World Tour. The Honeycomb construction provides a balanced flex pattern, perfectly suited for Jordy's smooth lines. The center fin is smaller than the side fins for increased maneuverability. This is the smallest fin in our medium range.

Template Category | Rake (drawn-out | drive)

FLAT FOIL

Flat foiled fins break free sooner, and are better at controlling speed. Often surfers prefer them in fast powerful surf where they do not need to create additional speed. If you have muscle memory from riding glass-ons, flat foiled fins will feel the closest.

CONSTRUCTION

HONEYCOMB

A lightweight hexagonal core gives these fins the feel of glass-ons. Engineered with a medium flex pattern, these are stiffer than Blackstix but more flexible than Fiberglass.
