FUTURES FINS RASTA QUAD BLACK TEAL FIN SET

The Rasta Quad, designed by Australian freesurfing icon Dave Rastovich, is a versatile set that will suit almost any quad option board. The honeycomb construction combined with Futures' V2-Foil on the front fins creates a looser feel, allowing for high-speed surfing and quick direction changes. The bamboo in the base of the fin provides additional stability, for peak performance in high speed situations.

V2 FOIL

A V2 Foil is a V. Foil and Flat Foil blend. It takes the best speed generating attributes of the V. (at the base) and transitions into a flat foil in the tip for a controlled release in critical turns. Try the V2 foil if you are transitioning from flat sided fins. The benefits of the V. foil base will be noticeable but the change for your muscle memory will not be too drastic.

HONEYCOMB

A lightweight hexagonal core gives these fins the feel of glass-ons. Engineered with a medium flex pattern, these are stiffer than Blackstix but more flexible than Fiberglass.
