

INDEPENDENT TRUCK POLISHED 159 MID SILVER

Code: 117863 13765

€ 37,00

INDEPENDENT TRUCK POLISHED 159 MID SILVER

New Independent MiD trucks feature a lower profile hanger for optimal contact point angle on your nose and tail for flip tricks, ledges, and all-around street skating with a recommended wheel size of 53mm and under.

The newly designed and first-ever Independent inverted kingpin can be used with either a 5.5mm Allen key or standard 9/16" hex wrench. The innovative new Shaft Nut in the baseplate creates a rigid and durable solution to lateral movement found in most inverted kingpin designs and increases adjustability.

The new MiD is 52mm tall and built on Independent's legendary geometry with full-size cushions for maximum turning action.

The all-new design includes new size designations underneath the hanger for easy identification.

52mm tall for optimal performance and wheel clearance with wheels 53mm and under.

A356 T6 Aluminum Hanger & Baseplate

The best lightweight aluminium alloy heat treated to T6 condition for strength, durability, and grind feel.

SCM435 Chromoly Steel Axle

Highest quality and durability available.

Inverted Grade 8 kingpin w/ 9/16" & 5.5mm Allen

Never break, never bend.

Steel Shaft Nut with nylon locking insert

159 model features 6 hole universal baseplate with old and new school mounting pattern.
