NSP SURFBOARDS PROTECH FISH 5'6" GREY

A Fish Protech is not just a groveler – stable, wide, and flatter-rockered and will out-paddle most shortboards. They are fast, fun, and perfect for ripping in all kinds of real-world conditions.

Rail: Boxy
Bottom: Concave into V
Ideal waves: 1-6ft
Level: Beginner – Expert

Fish Protech Design:

- Constructed in NSP's high-performance Protech technology with a 36g molded SecureCell EPS core with custom wet lamination.
- Newly designed reinforced carbon tail patch helps tune the tail flex, mimicking the flex patterns of pro customs.
- Wide nose creates more volume for added buoyancy providing more stability, faster paddling, and easy entry into the smallest waves with quick acceleration.
- Rocker and rail outline are combined with single to double concave bottom, with V through the tail incorporated into a wide

swallowtail.

- The slight hip behind the front fins reduces the area under the back foot creating a pivot point for snappy turns. Boxy and full rails also add to the overall volume and forgiving nature of this model.
- The Fish Protech performance delivers traction, down-the-line speed and maximum drive over the attest of sections.
- A tri-fin thruster setup guarantees speed and liveliness, with enough hold to ride out a line.

Colors

NSP's tint lamination process gives each board a unique, artistic and custom-like finish. Go check them out at your local shop – it's a visually appealing look.

Fins:

The Fish Protech models are available with NSP's 3x FTU boxes (all compatible with Futures Fins) and come out of the box with 3x MCF Designed Fins.
