OCEAN & EARTH GRIP FREDERICO MORAIS SIGNATURE TAIL PAD BLACK CORAL

Hailing from the wave-rich country of Portugal, Fred's surfing has been shaped from big beach breaks and slabbing points. A known power surfer who can combine big turns with airs, there is little wonder why Fred has become Europe's No.1 surfer. His tail pad features perforation on the side pieces and ground down slots on the arch. Less weight = more speed.

A split tail kick and an Extra High Power Kick creates a solid base to plant your back foot against for more control and drive = more power.
