Other Features: Key loop

#### Composition

83% Nylon, 17% Elastane

Exceptionally comfortable lightweight thermo fleece liner across the body of this suit.

Flexibility where you need it. durability where it count. this neoprene is designed to give you the best of both worlds.

Glued and blind-stitched seams only partially penetrate the neoprene, which reduce water entry and increase durability.

#### FEATURES & BENEFITS

Zoned velvet lining for added warmth, taping in key areas for watertightness, flexible and durable glideskin neoprene

#### WARMFLIGHT ECO VELVET

Exceptionnaly comfortable lightweight thermo fleece liner across the entire interior of this suit.

#### GLIDE SKIN

Warmth with a vintage look. Our durable Glide Skin neoprene is designed to block wind giving you more warmth where you need it.

#### GBS SEAM

Glued and blind-stitched seams only partially penetrate the neoprene, which reduce water entry and increase durability.

We're more committed than ever to ensuring our wetsuits perform in the water but have low impact on the environment. Quiksilver wetsuits feature sustainable materials and processes.

#### NATURAL LIMESTONE NEOPRENE

Replacing petrochemicals.

#### WATER-BASED LAMINATION

Using water-based glues eliminating the need for toxic solvents.

#### RECYCLED MATERIALS

Recycling scrap rubber tyres and neoprene waste.
