€ 29,95 ~~€ 39,50~~ - 24%

### REEF FLIP FLOP SMOOTHY BLUE

The Smoother takes us way back to the very roots of Reef sandals. The Smoother is simple with a comfortably woven strap design and Reef-flex triple density EVA construction. This men's sandal has anatomically correct arch support built into its lightweight, cushy footbed. The smoother is also very durable and grippy with its molded high-density EVA outsole for extra traction. This is a classic beach sandal among classics.

Woven strap design

Reef-flex triple density EVA construction

Anatomical arch support

lightweight cushy footbed

Molded high density EVA outsole for extra traction
