

SKIM ONE SKIMBOARD 45" FIBERWOOD TORN

Code: BMJ44048

€ 120,00

SKIM ONE SKIMBOARD 45" FIBERWOOD TORN

SkimOne's fiberglass/wood performance skimboards are extremely durable. Perfect for princes and newcomers continue to work. The composite structure made of fiberglass and wood ensures significantly increased buoyancy, so this is not only on the wave but also long-lasting. Another point not to be overlooked: the grace in its entire construction, with a strong emphasis on the long part of the conventional skimboard - in combination with the accentuated tail, a mega-agile board on longer and, above all, longer strokes.

Construction: Fiberglass/Wood
Dimensions: 116 x 50 x 1.27 cm
The weight is 75 kg per body weight
