SLIDE 31" SURFSKATE GUSSIE GROUNDSWELL

Developed in Australia, this shape has been designed for extra stability and maneuverability, giving you a very similar feeling to surfing, and suitable for horizontal cruising or pool carving.

Gussie is very versatile, recommended for riders which are already experienced surfers or skaters, but also for beginners that want to improve their balance and reaction times. Thanks to the Gussie set-up, it's a model that will be your best friend on flat days.
