SLIDE SURFSKATE TRUCK SET 3.0

Based on a simple mechanism which features an adjustable spring through which the user has the feeling of 'surfing on concrete,' linking easily one turn with another, never losing the flow and freedom of continual arcs.

An integral part of surfing is the continual practice of your maneuvers when far from the beach, or, when the ocean is flat or out of control. Slide Surf Skates are engineered to help surfers improve synchronization of legs and arms, achieve the timing required to weight and unweight hips, knees and ankles just as you need riding waves.
