SOLAREZ CRACK SEAL 15ML

An ultra thin penetrating formula that can seal shattered fiberglass by wicking into fractures. Water seepage is the cause of brown spots on urethane-core blanks. It makes foam mushy and deteriorates the foam / fiberglass bond. Craak Seal seals the Achilles heel of your board.

Ultra Thin Viscosity

Penetrates into cracks

Cures by UV in seconds

Seals / protects foam from saltwater

Use it on tail / nose chips, fin plugs, water spots
