SOLAREZ POLYESTERE 56ml. DING REPAIR KIT

DESCRIPTION

SOLAREZ repair putty is a mixture of clear, non-yellowing, high strength, fiber reinforced polyester resin and an amazing solar activated catalyst. There is no mixing required, just use it right from the tube. It gels in 30 seconds, curing in 3 minutes - but ONLY when exposed to sunlight.

Proprietary formula assures that millions of fiberglass fibers are thoroughly wet-out and evenly dispersed in every dose.

Bubble-free mixture

Denser cross-linking and surface cure

No residual peroxides

UV Stable

Comes with 60/240 grit sand pad.
