Recommended Rider Weight - 60-110 kg / 130-240 lbs

Volume - 60.0 ltr

"...MORE VOLUME AND BETTER GLIDE THAN A FUNBOARD"

Appealing to those who are looking for more volume and better glide than a funboard, but aren't interested in a full-size longboard. Great performance in thigh-high to slightly over head-high waves, this board is a tremendous wave catcher.

A low entry rocker gets you moving and provides the glide needed on smaller, weaker days. We packaged just enough tail rocker to allow it to perform in quick beach breaks or as the surf increases.
