### VANS X CURREN X KNOT BUCKET HAT

Pushing the boundaries and thinking differently is nothing new to Vans surfers Alex Knost (from Costa Mesa, California) and Lee-Ann Curren (from Biarritz, France). Whether in the water or out, they know that true self-expression means being unapologetically yourself. In this second season of their genderless head-to-toe collection from Vans, Alex and Lee-Ann worked together to integrate new colors and materials, driving a unique approach to progression with product and inclusivity. Their “outside-the-lines” way of thinking, both on a wave and off, has come to life in the new Vans X Curren X Knost Bucket Hat. Inspired by 70s interiors and automotive design, this reversible Sherpa to flight satin bucket hat highlights a classic aesthetic with retro flair. Because for Alex and Lee-Ann, it’s about more than creating a collection that people look good wearing—it is about feeling good when you are wearing it. • Alex Knost/Lee-Ann Curren collection • 80% cotton, 20% polyester • Reversible Sherpa flight satin bucket hat •

Novelty logo patch • Logo flag label
