

## WALDEN 8'0" MAGIC MODEL FUSION POLY FCS II

Code: WAFP-MG0800-FC1

€ 1.079,00

WALDEN 8'0" x 22" x 2.75" - 58.2L

• 8'0" x 22" x 2.75" - 58.2L

It's called the Magic Model for a reason. The Magic rocker, Magic rails, and the Magic hull are very unique to Walden Surfboards, the front 1/2 of the hull is concave, this single concave transitions into a double concave in the rear and the back 1/3 transitions into a moderate "V". The concave nose adds lift and stability, perfect for noseriding. The double-concaved hull and hard rails make the board fast, stable, responsive, and maneuverable in all conditions. The Magic rails are hard, they tend to be harder than most other longboards, the unique bottom curves & bevels keep the rails from catching, unlike most other hard rail boards. Riders of the Magic Model have been known to surf better, catch extra waves and enjoy their sessions more.

### ABOUT WALDEN

Known by many as the "Father of the Modern Longboard," Steve Walden shaped his first surfboard in 1961, at age 13, and never looked back. Eight years later, the native Southern Californian opened his first board factory and store in Huntington Beach, then moved to the North Shore of Oahu in 1972, where he made a name for himself as a prolific longboard shaper.

### Construction

PU Core  
PE Resin  
6oz Fiberglass w/4oz Patch  
Wood-Ply Stringer  
FCS II Fin Boxes  
Cut-lap Lamination w/Resin Tint  
Gloss and Polish Finish

The Magic rocker, Magic rails, and the Magic hull, is very unique to Walden Surfboards, the front 1/2 of the hull is concave, this single concave transitions into a double concave in the rear and the back 1/3 transitions into a moderate "V". The concave nose adds lift and stability, perfect for noseriding. The double concaved hull and hard rails make the board fast, stable, responsive and manoeuvrable in all conditions. The Magic rails are hard, they tend to be harder than most other longboards, the unique bottom curves & bevels keep the rails from catching unlike most other hard rail boards.

\*\*\*Fins Not Included

#### FUSION POLY

1. PolyUrethane Core // High-density polyurethane core for performance and feel
2. PolyEster Resin // Advanced polyester resin for strength and flex
3. 6oz Fiberglass w/4oz Patch // E-glass has the highest strength-to-weight ratio
4. Wood-Ply Stringer // Natural wood fibers creates a natural flex and adds break-strength
5. FCS II or Futures Fin Boxes // Takes just seconds to insert and remove the fins
6. Cut-lap Lamination w/Resin Tint // Adds strength and durability plus tint creates a unique look
7. Gloss and Polish Finish (\*On select models) // High gloss finish to turn some heads on your paddle out
